

Getting Your Books Onto Your Kobo Reader

Download the .epub version of the book you wish to read from our site to a place you can find it easily on your computer (such as your desktop or documents folder). Connect your Kobo Reader to your computer using the USB cable and then tap Connect on your Kobo Reader screen. When Windows prompts you for an action, select 'Open folder to view files.' A window should open, showing the contents of your device. In another window, go to the location of the ebooks you downloaded to your computer and drag and drop it into the Kobo library window.
